

Regulation of the awarding of subsidies by the Hiehle-Foundation

Status 12.05.2015

1. Proven expenses for travels and material (e.g. lab expenses, expenses for statistics, satellite images, and other material) which are needed for the academic papers (Bachelor, Master, State Examinations) can be half-funded with up to 500€. The subsidies will be granted after the marking of the academic paper with an overall mark of at least 2.0.

2. Following options of financial support exist for dissertations of doctoral candidates of Geography who have been accepted by the faculty of Chemistry and Geography:
 - **Before completion of academic paper:** general subsidy of up to 1.500€ of proven expenses for the publication of scientific research results in peer-reviewed trade journals (after a successful review-procedure), if the doctoral candidate is the first author. Possible expenses include costs of printing of color figures, expenses for Open Access, translators or language correction. Subsidies for expenses of offprints are not granted.
 - **After completion of academic paper (marked with at least the "magna cum laude"):** General subsidy of up to 1.500€ for proven printing-expenses. Only one of the two options of financial support can be chosen at a time.

3. Following options of financial support for expenses of mobility exist:
 - **Doctorate candidates** can be granted a subsidy of up to 1.000€ for field research and for active participation in geography meetings or symposiums (own talk or poster).
 - **Students** can be granted a subsidy of up to 300€ for half of the amount of proven expenses of visits of geography meetings.
